- Once in, you'll see your teacher's name and a list of student names. Click on your child's name.

- Next, you'll type your child's password. The password is the same as his/her IXL password.

- Once logged in, you'll be on the main page. Click on "reading room" to get started.

8. Once inside the reading room, your child's RAZ kids reading level will be stated. Please note that the RAZ level is still a guided reading level, but the letter may be different than the classroom letter. The books are aligned with our system, and your child will be reading books at the appropriate level.

9. Next, you can choose one of the books on the main page, or visit the "leveled books" section at the top. The leveled books section will allow your child to read books a bit above or below his/her reading level.

10. In order to open the book and allow your child to read it, click on the book icon underneath the book.

11. Finally, have your child read the book, and click on the arrows to turn the pages. Each book includes words to know and reflection questions at the end. Your child will earn stars after each book that is read.

The image shows a digital reading interface. At the top, a green banner reads "Reading Room". To the right of this banner are icons for a microphone, a trash can, a speech bubble, and a document. The main content area features a central illustration of a young girl with dark skin and curly hair, wearing a yellow shirt and blue shorts, waving her right hand. She is standing on a wooden floor next to a blue, blob-like alien with large eyes and a friendly expression. The background is a simple bedroom with a bed, a nightstand, and a window. Below the illustration, the text reads "Abby and Zots are best friends. Zots is from outer space." At the bottom of the page, there are navigation buttons: a blue arrow pointing left labeled "Back" and a blue arrow pointing right labeled "Next". In the bottom center, there is small text that says "Abby and Zots • Level C" and the page number "3".
